All computers, hardware devices, printers, scanners etc in laboratory are in well working conditions. Dead stock registers are maintained to keep records of purchase of equipments. Minor maintenance and repairing of equipments are performed by technical lab assistants. While performing these tasks, technical lab assistants makes sure that students also get involved into such activities so that they can have skill oriented real time experience of maintenance and repairing of devices. In Computer engineering program, all laboratories are equipped with sufficient number of hardware devices and software packages to meet curriculum requirements. Laboratory manual are distributed to all students at the start of academic sessions. Before starting of academic sessions, a routine maintenance is carried out by technical lab assistants. Next table shows working condition of overall hardware, furniture and items.

Table 8 : Overall Maintenance

| Sr no | Facility/Hardware/Furniture/Item | Condition |
|-------|---|-----------|
| 1 | Maintenance of All Computer Hardware and peripheral devices in all Laboratory | Good |
| 2 | LCD projector, Sound System, Power backup in Internet Laboratory | Good |
| 3 | Computer tables, Chairs, Stools, White boards, Green notice boards etc. in Laboratory | Good |
| 4 | Lanterns, Fans, Electric power supply switches, Air ventilation etc. facility in Classroom, Laboratory, Faculty rooms | Good |
| 5 | Networking devices, Switches, Lan Cables, Wall mounted cabinets etc. in Laboratory | Good |
| 6 | Notice boards, Shoes racks, Tube lights etc. facility in open porch outside Laboratory | Good |

Common guidelines for accessing Computers and Internet facility at laboratory

1. Maintain a friendly and quiet lab for students to do their work.
2. Absolutely no food or beverages are allowed in the labs.
3. Cell-phone use in the lab is prohibited. Emergency calls can be received, but the user must step outside of the Lab to continue the conversation.
4. Use of pen drives that may tamper important data in computers is restricted
5. No student should try to install any software on any computers.
6. Educational, Secure and Authentic websites only should be accessed by students.

Overall ambiance at laboratories

All laboratories are having high quality of ventilation. Sufficient numbers of windows are available in each laboratories. In fact, whole campus as well as computer engineering departmental area is surrounded by good number of green trees as well as bushes so that a fresh and healthy atmosphere is available to students inside as well as outside laboratory.

English language skills have become inevitable in the era of globalization. The skills of language contribute to career of engineering profession where every manual of each equipment is in English language and technologists have to interpret it correctly and act accordingly. Therefore, to build competency in language, here at institute, a laboratory which is fully dedicated to English language is available. A Language laboratory is used by students of computer engineering program on timely shared basis. Language laboratory has adequate number of computers, printers, scanners, sound box, Headphones and other infrastructural furniture. All computers are connected to internet via 100 Mbps capacity link. Following few tables gives general overview and description of computing and other facilities in language lab.
